Majestically sited on a pastoral hilltop with breathtaking panoramic Blue Ridge Mountain views, the main home was built with a vision of marrying a historic 1807 hand-hewn log cabin with a custom built, stone & timber frame portion to create a masterfully designed one-of-a-kind estate on 44ac+/- 5,000SF+/- with gourmet eat-in kitchen open to intimate den with stone fireplace, elegant dining room with large bay window, formal living room with original logs & ceiling with exposed beams, 5 generously sized bedrooms, 3.5 fully renovated baths, along with inviting family room on terrace level, 4 large porches, & 2 hardscaped patios providing space to unwind at days end. Estate also features 1829 guest house, tiny cabin, beautiful creek, stately trees, and productive pasture to round out this phenomenal mountain estate.
